EXPERIENCE

Web Development Intern – Prodigy Infotech   Apr 2024 - May 2024

- Acquired practical training in web development, focusing on HTML, CSS, and JavaScript.
- Built projects such as a To-Do List and Wikipedia Search Application to enhance technical proficiency.
- Acquired skills in frontend development, responsive design, and professional workplace communication.

PROJECTS

Insta Share – React App   Jul 2025

- Tech Stack: React, JavaScript, CSS, REST API.
- Developed a social media platform that mimics Instagram, featuring user authentication, post feeds, likes, and user profile pages.
- Implemented secure login flow, integrated APIs to fetch and post dynamic data, and ensured responsiveness for mobile and desktop views.

Nxt Trendz – React App   Apr 2025

- Tech Stack: React, JavaScript, CSS, REST API.
- Built a modern e-commerce web application with features like authentication, product listings, and detailed product pages.
- Designed a responsive layout to ensure a seamless user experience across devices, and integrated REST APIs to fetch dynamic product data.

Jobby App – React App   Apr 2025

- Tech Stack: React, JavaScript, CSS, REST API.
- Developed a job portal application with features to search jobs, filter results, and view job descriptions.
- Implemented user login with protected routes to enhance security, while ensuring optimal user experience through a clean and responsive design.

Crypto Tracker – React App   Mar 2025

- Tech Stack: React, JavaScript, CSS, REST API.
- Created a cryptocurrency tracker to monitor real-time prices in USD and EUR.
- Integrated external APIs to fetch live crypto data and presented it through a user-friendly UI, optimized for quick and seamless browsing of coin details.

Todo List - Web Application   Feb 2025

- Tech Stack: HTML, CSS, JavaScript.
- Designed a dynamic To-Do List application with task addition, deletion, and completion functionalities.
- Implemented Local Storage to retain tasks across sessions and page reloads, while crafting a responsive UI to ensure seamless usability across devices.
