EDUCATION

Nxtwave Disruptive Technologies   Aug 2024 – Oct 2025
Industry Ready Certification in Full-stack Development.

Vidyavardhaka College of Engineering | Mysore, KA   Dec 2020 – Aug 2024
Bachelor of Engineering in Information Science and Engineering | GPA - 7.93/10.

SKILLS

Languages/ Frameworks	-	React.js, Node.js, Express, JavaScript, Python, HTML, CSS, Bootstrap.
Database	-	MongoDB, SQL.
Other Skills	-	Flexbox, Git, GitHub.
Certifications	-	**Nxtwave** – React.js
		Nxtwave – Node.js
		Nxtwave – Full Stack Development with MERN Specialization

EXPERIENCE

Web Development Intern – Prodigy Infotech   Apr 2024 - May 2024
- Acquired practical training in web development, focusing on HTML, CSS, and JavaScript.
- Built projects such as a To-Do List and Wikipedia Search Application to enhance technical proficiency.
- Acquired skills in frontend development, responsive design, and professional workplace communication.

PROJECTS

Rent My Cam (Freelance Project)   Sep 2025 – Oct 2025
Built a full-stack camera and accessories rental platform with responsive UI and admin dashboard.
- Developed frontend using React.js and backend APIs using Node.js, Express, and MongoDB.
- Implemented secure JWT-based admin authentication, integrated Cloudinary for image management, and deployed the application on Render and Hostinger for production hosting.

Technologies used: HTML, CSS, JavaScript, React JS, Bootstrap, client storage.

Insta Share (Instagram Clone)   Jul 2025
Implemented responsive Streaming Application like Instagram Clone where users can log in and see a list of stories and posts, user can also search posts with post caption, user can be able to like and dislike the post and also view the user specific posts.
- Developed multiple routes for login, home, and profile pages using React Router components.
- Integrated REST APIs for authentication, posts, and user data with persisted login state.
- Secured pages using protected routes to ensure access only for authenticated users.

Technologies used: HTML, CSS, JavaScript, React JS, Bootstrap, React Slick, Figma, client storage.

Nxt Trendz (ECommerce Clone - Amazon, Flipkart)   Apr 2025
Implemented Nxt Trendz application which is a clone for ECommerce applications like Amazon, Flipkart where users can login and can see list of products with search, filters, sort by, etc.
- Implemented routing using React Router and integrated APIs with authentication, filters, and query parameters.
- Handled JWT-based login persistence and authorization for secured API calls.

Technologies used: React JS, JS, CSS, Bootstrap, REST API Calls, Local Storage, JWT Token, Authorization, Authentication.

Jobby App   Apr 2025
Implemented Jobby App where users can log in and can see a list of jobs with search by Job title, filters based on Salary range and Employment type, etc
- Implemented different pages like Login, Home, Jobs, Job item details using React components, props, state, and routing with React Router.
- Implemented authentication via username/password, managed JWT-based session persistence, and authorized API calls with headers.
- Added filters and search using query parameters and secured routes with protected route logic for authenticated access.

Technologies used: React JS, JS, CSS, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication
